

Product Family
EEBD (Emergency Escape Breathing Devices)

Light, compact and easy to use, our Emergency Escape Breathing Devices (EEBD) are perfectly adapted to confined spaces, marine, industrial and Oil & Gas applications. They are available with a duration from 10 to 20 minutes.

Honeywell

Product Numbers & Ordering Information

	Product Numbers	Details
	1815732	Bio-S-Cape (with 3L 200 bar steel air cylinder) Compressed Air Emergency Escape Breathing Device (E.E.B.D) designed for escape in toxic or oxygen-deficient environments, 15-Minute duration, with hood and low pressure whistle alarm.
	1815746	Bio-S-Cape (with 3L 200 bar composite air cylinder) Compressed Air Emergency Escape Breathing Device (E.E.B.D) designed for escape in toxic or oxygen-deficient environments, 15-Minute duration, with hood and low pressure whistle alarm.
	1815357	Aeris Mini without cylinder Sx-Pro demand valve and Panoramisque full-face mask with 5-point head strap.
	1815374	Aeris Mini with cylinder Sx-Pro demand valve and Panoramisque full-face mask with 5-point head strap. With 3L 200 bar steel air cylinder (empty), integrated gauge, 15 minutes
	1918727	Oxy-Pro without waist belt, without goggles
	1910565	Oxy-Pro with waist belt

Additional Information

Overview

Key Features

BIOSCAPE (with hood)

- Light and compact
- Wide field of vision with the high visibility hood
- 10 to 20 mn autonomy depending on the model
- Powerfull alarm whistle non-metallic
- Gauge visible at all times
- Steel and composite cylinders available

AERIS MINI (with full face mask)

- Light and Compact
- Easy and quickly adapted
- Sx-Pro quick click first breath activated pressure posiitive demand
- End of operation alarm whistle
- Chemical-splash resistant carrying bag
- Integrated gauge

OXY-PRO (self rescuer KO2)

- Compact & Light
- Worn at the waistbelt
- Airtight
- Designed for quick and easy use
- Nose-Clip
- Anti-static 6L respiratory bag

Recommended Industries/Use

- Other
- Chemical
- Manufacturing
- Mining
- Oil and Gas
- Nuclear

Hazards

- Airborne Particulates
- Biohazard
- Chemical
- Confined Space
- Contamination
- Gas, Vapors, Smoke

Regulations

- Bioscape type-approvals - EN 1146: 2005, SOLAS, MSC, MED and IMO
- Aeris Mini type-approvals - EN 402
- Oxy-Pro type-approvals - EN 13794 – Classification Type K 30-S

Historical Brand

Fenzy

Specifications

Bioscape Dimensions (W x H x D)

- 500 x 180 x 180 mm (with 3L 200 bar air cylinder)

Bioscape Weight

- 5,25 kg (with 3L 200 bar steel air cylinder) / 3,45 kg (with 3L 200 bar composite air cylinder)

Aeris Mini Dimensions

- 480 x 225 x 260 mm

Aeris Weight

- 5.5 kg

Bioscape & Aeris Mini Duration

- 15 minutes

Bioscape & Aeris Mini Approved temperatures

- -15°C/+60°C

Oxy-Pro Dimensions

- 200 x 208 x 108 mm

Oxy-Pro Weight

- 2,3 kg

Oxy-Pro Duration

- 30 minutes at 35 l/min

Oxygen generation

- KO₂ (Potassium superoxide) cartridge
